

Join Our Exclusive INFOGEST Training Workshop in Winnipeg, MB - Register Now!

We are thrilled to announce an exceptional opportunity for professionals in nutrition, food science and technology, hosted at **The Richardson Centre for Food Technology and Research** in Winnipeg, Manitoba, Canada. This inaugural North American training workshop is a collaborative effort between the **University of Manitoba**, **The Manitoba Strategic Research Chair in Sustainable Protein**, and **Agroscope Switzerland**, **CSIC Spain**, **Teagasc Ireland**, and **INRA**.

This workshop centers on the **INFOGEST 2.0 digestion protocol**, a globally recognized method for simulating the human gastrointestinal process and evaluating food digestion. While the focus of the workshop will be on **digestion and measurement protocols for protein and amino acids***, you will also gain knowledge on the foundations of the digestion protocol. This workshop presents a valuable opportunity for growth and learning in the field.

**Sousa, Raquel, et al. "In vitro digestibility of dietary proteins and in vitro DIAAS analytical workflow based on the INFOGEST static protocol and its validation with in vivo data." Food Chemistry 404 (2023): 134720.*

- Date: **July 9-12, 2024**
- Time: 8:00 am - 4 pm each day
- Location: Richardson Centre for Food Technology and Research, 196 Innovation Drive, Winnipeg, Manitoba
- Focus: Hands-on training on the INFOGEST 2.0 digestion protocol and workflow, emphasizing protein quality and digestibility measurement for protein content claims
- Format: A blend of theoretical knowledge and practical application, culminating in a hands-on session under expert supervision

This workshop is a must-attend for those looking to deepen their understanding of the INFOGEST model and its application in food technology. It's a rare chance to gain practical experience and insights directly from the experts.
